

Libraries Get Vocal!

Local Planning = Statewide Success

The Indiana Public Library Association and Indiana Library Trustee Association are mounting the Library Champions campaign. Indiana Library Champions are dedicated library directors, trustees and Indiana citizens committed to the successful passage of legislation (SB 348) for a **County Level Public Library Service Planning Process**.

SB 348 is a thoughtful, practical alternative to "one-size-fits-all" over-simplification and is designed to help each county develop its own multi-year plan for

- Managing limited resources
- Improving the cost-effective delivery of library services for all citizens
- Ensuring that local libraries are meeting 21st century service standards

Library champions across the state are stepping forward to manage the significant impact of today's economy and local government and property tax reforms.

Indiana Library Champions are **getting vocal** to support **local planning** for **statewide success**.
